POISON DANGER

FIRST AID
IF SWALLOWED: CALL A PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY. If less than ten (10) minutes have passed since the poison was taken, give 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Have patient lie down in a quiet, darkened room and keep him warm and quiet. If person is unconscious, do not give anything by mouth and do not induce vomiting. **IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention. **IF IN EYES:** Hold eyelids open and flush with steady, gentle stream of water for 15 minutes. Get medical attention. **IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.
NOTE TO PHYSICIAN: Administer 100% Oxygen by positive pressure to provide as much pulmonary gas exchange as possible, despite seizures. Administer ANTICONVULSANT DRUGS intravenously to control convulsions.
NOTICE: It may be difficult or impossible to stop the seizure activity without stopping respiration. Be prepared to maintain pulmonary ventilation mechanically. Tracheotomy may be necessary if seizures are prolonged.
See back panel for additional precautionary statements.

For Control of Pocket Gophers Ready-To-Use Poison Grains

ACTIVE INGREDIENT:
Strychnine alkaloid.....0.50%
INERT INGREDIENTS...99.50%

NET WT. 10 LBS. (4.5 kg)

.21875"

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For home use only.

USE RESTRICTIONS: This product may only be used to control pocket gophers (*Geomys* spp. and *Thomomys* spp.) in underground applications in outdoor residential areas, including lawns. Bait must be manually applied directly into pocket gophers' underground burrow systems. Do not apply this product by use of a mechanical burrow builder. Do not apply this bait on or above the ground surface. Immediately pick up any bait that spills on the ground. Keep pets and other people out of the area during application.

BAITING: Burrowing pocket gophers throw out low, fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. Remove burrow plug from the flat side of the burrow fan. Use long-handled spoon and insert 1 teaspoon of bait into main runway system. Close tunnel with soil. Do not permit soil to cover bait. Depending upon pocket gopher population levels, one-quarter (1/4) cup applied by hand will treat 4500 to 35000 square feet.

STORAGE AND DISPOSAL

Pesticide Storage: Store only in original container, in a dry place inaccessible to children, pets, and domestic animals.

Pesticide Disposal: Recover any spilled product, securely wrap it in several layers of newspaper, and discard in trash. Do not pour any unused product down any indoor or outdoor drain.

Container Disposal: If empty: Discard container in trash. If partially filled: Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Convulsive Poison! Fatal if swallowed or inhaled. Harmful if absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Do not breathe dust. Do not apply this product in a way that will contact any person or pet. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear:
• long-sleeved shirt and long pants
• cotton gloves
• shoes plus socks

Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not allow bait to be exposed on soil surface. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply directly to food or feed crops. Do not contaminate water when disposing of equipment washwaters.

ENDANGERED SPECIES CONSIDERATIONS

NOTICE: The killing of a member of an endangered species during strychnine baiting operations may result in a fine under the Endangered Species Act. Before baiting, the user is advised to contact the Regional U.S. Fish and Wildlife Service (Endangered Species Specialist) or the local Fish and Game Office for specific information on endangered species. Strychnine baits should not be used in the geographic ranges of the following species except under programs and procedures approved by the U.S. EPA: San Joaquin kit fox, Morro Bay kangaroo rat, salt marsh harvest mouse, gray wolf and grizzly bear.

Filled by weight not by volume. Product may settle after packaging.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
