PROTECT YOURSELF, PROTECT YOUR PETS

This product contains animal manures and/or byproducts that may attract dogs or other pets. Consumption of this product may make animals sick. To minimize potential problems: 1) Store away from pets, 2) Thoroughly mix into soil to eliminate large clods or surface exposure of product, 3) Do not apply this product along with pesticides.

Please wash hands and exposed skin with soap and water after using this product.

Derived from Dried Poultry Waste; Cottonseed Meal; Ammonium Phosphate; Elemental Sulfur; Urea; Muriate of Potash; Calcium and Sodium Borate; Ferrous, Manganese, and Zinc Oxides; Sodium Molybdate.

Filled by weight not by volume. Product may settle after packaging.

Rhododendrons, azaleas, camellias, and evergreen shrubs need a special combination of plant foods to bloom and grow their best, one that encourages the acid soils they love. It's easy to give them what they need, with Lilly Miller AZALEA CAMELLIA & RHODY FOOD.

Lilly Miller blends natural ingredients with traditional plant foods to produce a unique fertilizer that provides nitrogen from four different sources. We've added a mix of nutrients that are available to the plants quickly to help get them off to a great start. We've added others that last longer to keep on feeding your shrubs steadily for up to six weeks. Azalea Camellia & Rhody Food also adds extra minerals, so plants are never hungry for these essential elements. For rhododendrons, azaleas, camellias, and other spring-flowering shrubs put Azalea Camellia & Rhody Food on in early spring (February – March). Feed again in early summer after flowers have fallen off.

For evergreen shrubs, such as holly, junipers, and pines, put Azalea Camellia & Rhody Food on after the first blossoms appear. Feed again in early or mid-summer.

Use Azalea Camellia & Rhody Food when planting, too.

HOW DO I USE THIS PRODUCT?

For hedges and borders: Use 1-1/2 cups for each 25 sq. ft. (5' x 5') of area. Sprinkle fertilizer evenly over the soil or mulch. Mix it lightly into the soil, if possible. Be careful not to damage shallow roots.

For a single shrub or bush: Use 2/3 cup per plant for most shrubs. Use 1 cup for plants over 6 feet tall. Sprinkle Azalea Camellia & Rhody Food in a ring around the bush, 6 – 12 inches from the trunk. For larger shrubs, sprinkle

fertilizer at the drip line. Mix it lightly into the soil, if possible. Be careful not to damage shallow roots.

When planting a shrub: Mix 3 tablespoons of Azalea Camellia & Rhody Food into the soil at the bottom of the planting hole. Do not let the roots directly touch the plant food. Feed again in about four weeks.

Always water shrubs and hedges well after adding fertilizer.

OUR COMMITMENT TO YOUR SATISFACTION: If you are not happy with the way this product works in your garden, please let us know. We will be happy to replace the product, refund your money, or substitute another Lilly Miller product. Simply send your name, address and proof of purchase to the address shown.
