Miller®

# AMMONIUM SULFATE 21-0-0

## FOR LAWNS • GARDENS SHRUBS • TREES

FEEDS 4,000 SQ. FT.

### DIRECTIONS

Ammonium sulfate is a fast-acting source of nitrogen. Use it all around the lawn and garden. It's ideal for greening a lawn or growing lush flowers and vegetables. Apply every 6 to 8 weeks, as needed, throughout the growing season.

### LAWNS

Use a push-type or hand-held spreader to scatter the granules uniformly. Apply 5 pounds per 1000 square feet of lawn. Then turn on the sprinkler and water it in.

### FLOWER BEDS & VEGETABLE GARDENS

Before planting, scatter 1-2 pounds per 100 square feet. Then work the fertilizer in by tilling the soil.

### SHRUBS AND TREES

Ammonium sulfate is perfect for acid-loving plants like azaleas, conifers and rhododendrons. Scatter a handful over the root zone and water it in. (The root zone is the circular area from the trunk out.)

### COMPOST PILES

Ammonium sulfate adds nitrogen to compost and speeds decomposition. Scatter 1-2 pounds per 10 square feet of packed organic material. Apply more fertilizer after each 6-inch deep layer is added to the pile.

### SPREADER SETTINGS FOR LAWNS

|                                    |       |
|------------------------------------|-------|
| Ortho® Whirlybird® spreader        | 4     |
| Lilly/Miller® Mini-Caster spreader | 4     |
| Scotts® PF-2 drop spreader         | 4 3/4 |

The spreader settings above are approximate. Check your spreader on 200 sq. ft. of lawn – an area 20'x10'. Adjust the spreader to apply 1 lb. of fertilizer per 200 sq ft.

### GUARANTEED ANALYSIS

|                                |       |
|--------------------------------|-------|
| Total Nitrogen (N)             | 21.0% |
| 21.0% ammoniacal nitrogen      |       |
| Sulfur (S)                     | 24.0% |
| 24.0% combined sulfur (S)      |       |
| Derived from ammonium sulfate. |       |

Store in a cool, dry place. Keep out of reach of children and pets.
