**MOSS OUT! GENERAL PURPOSE**

**CLEANER**

**Removes Algae, Mold,  
Mildew & Moss Stains**

**For decks, roofs, siding, windows, concrete,  
patio furniture and many other outdoor surfaces**

- ✓ Biodegradable: No chlorine bleach, ammonia, or phosphates
- ✓ Safe for people, pets, and plants\*
- ✓ Cleans up to 1,000 sq. ft.

**NET CONTENTS  
1 QUART (946 ml)**

09603100-05/03

**CAUTION**

Eye Irritant. Read back label.

Use on **roofing** (wood, concrete and clay tile, composites); **gutters** (plastic or metal); **siding** (vinyl, aluminum, wood, composites); **windows and window frames** (wood, metal, vinyl coated); **concrete, wood, and plastic structures** (driveways, walkways, walls, eaves, patios, steps, decks, fences, trellis' and miscellaneous outdoor structures, awnings, birdbaths, fountains, pools, statuary, garbage cans); **patio furniture** (plastic, wood, metal, wrought iron, steel, wicker, powder coated metal, fiberglass); **outdoor fabrics** (weather-resistant cushions, awnings, tents, umbrellas, tarps, vinyl coverings); **brick; stucco; masonry; asphalt; terra cotta; rocks.**

**To kill existing moss before cleaning stained surfaces, use Lilly Miller® Moss Out!™ For Roofs and Structures, available as an economical liquid concentrate, convenient Hose 'n Go® and Ready-To-Use liquids, and easy to apply granules. Follow label directions.**

#### **DIRECTIONS FOR USE**

**FOR OUTDOOR USE ONLY.** Shake well before using. This container will clean up to 1,000 sq. ft. (less on rough or porous surfaces).

**USE PRECAUTIONS:** Do not apply to bare aluminum. Do not mix with other household chemicals. Test in an inconspicuous area first to determine suitability for use. Treated surfaces may be slippery when wet. Do not use to clean fountains or ponds containing fish; remove water and plants before treating these surfaces. Prevent run-off or drift from entering fish ponds. May remove peeling, loosened, or oxidized paint or stain. May cause outdoor fabrics to fade, especially if already sun damaged. Do not use on leather.

**BEFORE APPLICATION:** Wet surrounding areas and plants with clear water. Product oversprayed onto these surfaces can be neutralized with large volumes of water. Using a leaf blower, rake, or broom, carefully remove loose moss and debris from surface to be treated.

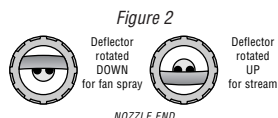

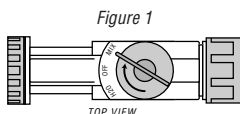

**TO APPLY:** APPLY TO DRY SURFACE, using the attached hose-end applicator as directed below. Spray to thoroughly coat surface and soak stains. For most surfaces, allow spray to dwell up to 20 minutes before rinsing. When applying to outdoor fabrics, windows, aluminum siding, vinyl, or painted surfaces, allow spray to dwell 5 minutes before rinsing. When applying to brick, rinse immediately after application.

**AFTER APPLICATION:** Rinse treated area with clear water under pressure, using pressure washer on low setting (75 – 150 p.s.i., higher on unpainted cement or wood decks), a regular garden hose nozzle on "fan" or "jet" setting, or the attached hose-end applicator with deflector set to give a stream spray. For most stains, there is no need to scrub the treated surface. Scrubbing may be needed for tough stains, such as from moss and mildew. A second application may be needed for extremely soiled or mildewed surfaces. Mildew may not be completely removed from porous surfaces. This product will not remove rust stains.

#### **TO USE THIS SPRAYER:**

##### **Sprays up to 20 feet!**

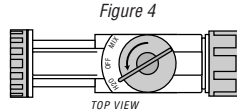

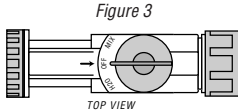

1. Shake container well.
2. Connect spray nozzle to garden hose.
3. Turn on the water from the faucet.
4. When you are ready to spray, turn the knob on top so that it points to the MIX position on the spray head. (Fig.1)
5. The spray deflector on the front of the hose-end applicator can be rotated to give a stream or fan spray. (Fig. 2)

### TO STOP SPRAYING:

1. When you are finished spraying or if you have to stop spraying at any time, turn the knob back to the OFF position. (Fig. 3)
2. Turn off the water from the faucet.
3. Turn the knob to H<sub>2</sub>O then OFF, to drain the water from the hose. (Fig. 4)
4. Unscrew spray nozzle from hose.

### CLEAN ASPHALT SHINGLES, COMPOSITES, AND TILE ROOFING WITHOUT RINSING

Use Hose 'n Go Moss Out! General Purpose Cleaner as a "leave on" spray to clean these surfaces without rinsing. Carefully remove all loose moss and debris from roof using a leaf blower, broom, or rake. Apply 1/2 of this container to 500 sq. ft. (25'x 20') of dry roof surface. Spray to thoroughly coat shingles or tile. Allow spray to dry for 20-30 minutes, then reapply a second coat and allow it to dry. The contents of this container will cover 500 sq. ft. (25'x 20') of roof at the double application rate. Stains will darken during the treatment. After several heavy rainfalls the roof will be returned to a bright, clean appearance, free of fungus and moss stains.

LILLY MILLER®

MOSS OUT!™ GENERAL PURPOSE

**CLEANER**

**HOSE 'N GO® MOSS OUT!™ GENERAL PURPOSE CLEANER** is biodegradable and does not contain chlorine bleach, ammonia, or phosphates. It is safe for people, pets, and plants \*when used as directed. It quickly and effectively cleans many outdoor surfaces in as little as 5 minutes—without scrubbing.

**HOSE 'N GO® MOSS OUT!™ GENERAL PURPOSE CLEANER** removes **slimy green and slippery black algae, mold, mildew, fungus, and moss stains**. Special surfactants penetrate the surface to safely and easily dissolve the toughest stains from **dirt, oil, grease, bird droppings, pollen, and tree sap**.

**COLD  
WEATHER TIPS**

To dissolve precipitates formed during cold weather, bring product to room temperature or add a small amount of warm water to container contents before use. For best results when applying in cold weather, add 5-10 minutes to recommended dwell times.
