continued...

1-1/2 - 3 cups 3 gallons 1500 sq. ft.
(12 - 24 fl. oz.)

Use the higher amounts when conditions are especially dry and on mature or hard to kill brush (such as ash, blackgum, chokecherry, elm, maple, oak, pine or winged elm), to prevent resprouting. Coverage will vary somewhat depending on the amount of brush to be sprayed.

What will I see?

In one to six weeks the leaves will begin to wilt, turn brown and drop off.

Stump Treatment:

Blackberry & Brush Killer can also be used to prevent woody plants and trees from sending up sprouts from the roots. Right after the tree or bush has been cut down, apply Blackberry & Brush Killer to the stump. Use the product straight from the bottle, do not add water. Use a paint brush or small sprayer to completely cover the freshly cut surface. Do not reuse the paint brush; wrap it in several layers of newspaper and discard it in the trash. Blackberry & Brush Killer will be absorbed into the roots and reduce the number of sprouts coming up in the lawn and surrounding areas.

STORAGE AND DISPOSAL

Store this product in its original container and keep out of reach of children and domestic animals. *If empty:* Do not reuse this container. Place in trash or offer for recycling if available. *If partly filled:* Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

BLACKBERRY & BRUSH KILLER

- **Kills woody plants and deep-rooted weeds including blackberries, poison oak and Scotch broom**
- **Kills completely – stumps and roots won't grow**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only. Not for use indoors.

- Controls horsetail rush
- Makes up to 4 gallons of spray
- Easy to apply with a pump-up or hose-end sprayer
- Won't harm the soil-replant in just 1 month

What is this product? And what will it do?

Blackberry & Brush Killer kills blackberry vines, plus many kinds of brush and unwanted woody plants. This product can be used in many places around your yard, such as along fences and driveways, under decks, around patios and buildings, or in driveways and parking areas. The area can be planted again just a few weeks after spraying.

Blackberry & Brush Killer will also prevent woody plants from sending up sprouts from the roots, once they are cut down.

Use Blackberry & Brush Killer to kill these plants:

Alder, Arkansas Rose, Arrowwood, Ash, Aspen, Beech, Birch, Blackberry, Blackgum, Box Elder, California Rose, Cascara, Ceanothus, Cherry, Chinquapin, Chocho Cherry, Cottonwood, Douglas Fir, Dogwood, Elderberry, Elm, Hawthorn, Hazel, Honeysuckle, Hornbeam, Horsetail Rush (Field), Kudzu, Locust, Madrone, Maples, Mesquite, Mimosa, Mulberry, Oaks, Persimmon, Pine, Poison Ivy, Poison Oak, Poplar, Raspberry, Salmonberry, Sassafras, Scotch Broom, Sumac, Sweetbay Magnolia, Sweetgum, Sycamore, Tanoak, Thimbleberry, Trumpet Creeper, Tulip Poplar, Vine Maple, Virginia Creeper, Western Hemlock, Wild Grape, Wild Rose, Willow, Winged Elm.

How do I use this product?

When to use: Spray brush anytime it is actively growing – in Spring, after leaves are fully open, in Summer, when there is sufficient water, or in the Fall, before the leaves begin to change color.

What to do: Spray Blackberry & Brush Killer using a pump sprayer or a hose-end sprayer. Use a spray pattern which gives small droplets without a fine mist. Over-pumping the sprayer will make a fine mist. Spray when the air is calm and there is no wind. Wet the brush completely with the spray. This product works through the leaves and bark; there's no need to wet the soil. After leaves have dropped off (4 - 6 weeks after spraying), cut down the brush and dispose of it. Once the brush is gone, the area may be replanted.

What not to do: Do not spray when it is windy.

Do not allow spray mist to drift onto vegetables, flowers, ornamental shrubs and trees, small fruits, fruit trees, or any other desirable plants. They will be damaged. Do not spray when rain is expected. Do not water the area for 24 hours after spraying. Do not use this product around vegetables, fruits or other plants you eat. Do not use this product when temperatures are above 85 degrees F.

Mixing and Measuring – Shake well before using.

It's a good idea to have a separate sprayer just for weed and brush killers, to avoid mix-ups.

| Use this amount of Blackberry & Brush Killer | in this amount of water | to cover this area |
|---|----------------------------|-----------------------|
| 1/2 - 1 cup (4 - 8 fl. oz.) | 1 gallon | 500 sq. ft. |
| 1 - 2 cups (8 - 16 fl. oz.) | 2 gallons | 1000 sq. ft. |

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes eye irritation. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist. When applying this product, wear a long-sleeved shirt, long pants, shoes and socks, and waterproof gloves. Wash thoroughly with soap and water after handling. Do not allow children or pets onto treated areas until sprays have dried. Remove saturated clothing and wash before reuse.

FIRST AID

Have product container or label with you when calling a poison control center or doctor, or going for treatment. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **If on skin or on clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

NOTICE: Seller makes no warranty, express or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
