

RAPID GREEN™

Weed & Feed

with Trimec® herbicide

Kills Dandelions, Clover, Chickweed
& other broadleaf weeds

Greens-up your lawn quickly

ACTIVE INGREDIENTS:	
Dimethylamine Salt of 2,4-Dichlorophenoxyacetic Acid.....	0.44%
Dimethylamine Salt of (+)-(R)-2-(2-methyl-4-chlorophenoxy)propionic acid.....	0.10%
Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid).....	0.04%
OTHER INGREDIENTS.....	99.42%
Total.....	100.00%

This product contains:
 0.36% 2,4-Dichlorophenoxyacetic acid equivalent
 0.08% (+)-(R)-2-(2-methyl-4-chlorophenoxy) propionic acid equivalent
 0.04% 3,6-Dichloro-o-anisic acid equivalent
 Isomer Specific by AOAC Methods.

Keep out of reach of children

CAUTION

See back panel for additional precautionary statements and First Aid.

RAPID GREEN™ Weed & Feed

with Trimec® herbicide

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wear long-sleeved shirt, long pants, shoes, socks, and chemical-resistant gloves made of any waterproof material. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticides to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

FIRST AID

Have product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7278 for emergency medical treatment information.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or on clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRECAUTIONS AND RESTRICTIONS

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until dusts have settled. The maximum number of broadcast applications per treatment site is 2 per year. Wait a minimum of 30 days between applications. For residential use only.

Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy.

Apply this product directly to your lawn or garden, and sweep any product landing on the driveway, sidewalk, gutter, or street, back onto the treated area. To prevent product run-off, do not over water the treated area to the point of runoff or apply when raining or when rain is expected that day.

2,4-D, MCPP and Dicamba are injurious to most plants other than grasses, so this material should be applied carefully on a day with low wind velocity to avoid drift onto valuable plants. Applications during hot weather (over 80 degrees F) are apt to cause some temporary damage to turf. Do not use on St. Augustine grass, Dichondra, carpetgrass or clover lawns. Can cause possible injury to bentgrass. Do not apply within the drip line of desirable trees and shrubs.

For best results, do not mow lawn for two days prior to application. Do not apply to new lawns under three months old. Apply to moist soil and foliage using an accurate spreader and the appropriate dial setting from the chart below. Do not water for at least 24 hours after application. A second application can be applied after one month to control any particularly hard-to-control weeds.

Lawns must be thoroughly watered the day before application. Then water again lightly, just prior to application.

Begin spreading by laying down two strips of lawn food at each end of lawn. Fill in remaining area as shown here.

Close the spreader when you stop walking or make turns to avoid uneven coverage. Stop and starting with the spreader box open will waste lawn food.

Overlap previous wheel track slightly, as shown, to avoid gaps in coverage.

Wait 24 hours for herbicide to work. Then, water in to start the greening process.

SPREADER SETTINGS

SPREADER SETTINGS ARE APPROXIMATE USE AS A GUIDE ONLY. NOT A GUARANTEE OF EXACT COVERAGE. Condition of spreader, walking speed and roughness of area affect coverage. If fertilizer appears to be coming out too fast, adjust the setting to slow the flow. Close spreader when filling, turning or stopping. Rinse spreader with clear water after use. Avoid stains to concrete.

SPREADER SETTINGS

Drop Spreader Models	Settings (20 lbs. for 4,000 sq. ft.)
Earthway Ev-N-Spread	10
Green Thumb (True Value)	8.25
Orto 5000	8.25
