Rose & Flower FOOD

Enjoy the romance of fragrant roses and armloads of colorful flowers right in your own backyard. It's easy to grow lots of big, beautiful roses plus all kinds of other flowers with Lilly Miller ROSE & FLOWER FOOD. We've combined alfalfa meal and other natural ingredients with traditional plant food to produce a unique fertilizer blend that provides nitrogen from four different sources.

We have blended our Rose & Flower Food for both short term and long term plant performance. We've added a mix of nutrients that are available to the plants quickly and help get them off to a great start. We've added others that last longer to keep on feeding your rose bushes and flower garden steadily for up to eight weeks. Alfalfa meal provides additional growth enhancers, especially for strong shoot growth. Rose & Flower Food also adds extra minerals, so the flowers in your garden will never be hungry for these essential elements.

Flowers need fertilizer throughout the season to grow strong and bloom well. Use Lilly Miller Rose & Flower Food at planting time or in early spring. Then every six to eight weeks throughout the growing season.

HOW DO I USE THIS PRODUCT?

For a new flowerbed or rose garden: Sprinkle 2 cups Rose & Flower Food evenly over each 25 sq. ft. (5' x 5') of flower or rose bed. Mix it into the soil to a depth of 3 – 6 inches along with any compost or other soil amendments you are adding.

For a single rose or other flowering shrub, for individual perennial flowers, and for planting in containers: Mix 1/2 cup of Rose & Flower Food into the soil at the bottom of the planting hole before you set in the plant. Do not let the roots directly touch the plant food. Feed again in six to eight weeks.

For roses, flowering shrubs, and flower gardens: Use 1-1/3 cups of Rose & Flower Food over each 25 sq. ft. (5' x 5') of area. Sprinkle plant food evenly over the soil or mulch.

For a single rose or shrub: Use 1/2 cup Rose & Flower Food per plant. Sprinkle the fertilizer in a ring around the bush. Keep it 6 – 12 inches away from the center of the plant.

After putting fertilizer down, mix it lightly into the surface of the soil, where possible. Be careful not to damage roots. Always water the plants and soil well, after adding fertilizer.

OUR COMMITMENT TO YOUR SATISFACTION: If you are not happy with the way this product works in your garden, please let us know. We will be happy to replace the product, refund your money, or substitute another Lilly Miller product. Simply send your name, address and proof of purchase to the address shown.

Derived from dried poultry waste, alfalfa meal, ammonium sulfate, ammonium phosphate, sulfate of potash magnesia, calcium and sodium borate, iron sucrate, manganese sucrate, sodium molybdate, zinc sucrate.

*1.8% slowly available nitrogen from dried poultry waste and alfalfa meal.

F1475

ABOUT OUR SPECIAL FORMULA...

5% N Nitrogen

We use 4 sources of nitrogen –two for quick, lush growth, and two slow release sources for feeding that lasts up to 2 months.

8% P₂O₅ Available Phosphate

We add extra phosphorus, the key to bright, abundant flowers.

4% K₂O Soluble Potash

Potassium (potash) helps plants resist drought and effects from excessive temperatures.

This product also contains alfalfa meal to promote strong vigorous plants.

The other minerals in this premium formula improve plant color, vigor, and strength to give you the lush garden you want.

PROTECT YOURSELF, PROTECT YOUR PETS

This product contains animal manures and/or byproducts that may attract dogs or other pets. Consumption of this product may make animals sick. To minimize potential problems: 1) Store away from pets, 2) Thoroughly mix into soil to eliminate large clods or surface exposure of product, 3) Do not apply this product along with pesticides.

Please wash hands and exposed skin with soap and water after using this product.

NOTICE – This product contains Arsenic, Cadmium, Chromium, Cobalt, Lead, and Nickel, chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
