

SPOONIT®

14-16-10

**Premium Soluble
FUCHSIA FOOD**

FOR DEEP, RICH, VIBRANT COLORS

NET WT. 6 OZ. (170 g)

SPOONIT®

SPOONIT® FUCHSIA FOOD is a concentrated, water soluble plant food formulated especially for fuchsias. This formula is rich in nitrogen to satisfy these heavy feeders, with extra phosphorus for strong roots and lots of blooms, plus magnesium and sulfur for vibrant colors and plant vigor.

DO NOT APPLY IN DRY FORM.

During the growing season (March through August) feed regularly for lush growth and abundant blooms. For best results, feed plants with every watering, using 1 teaspoon SPOONIT® in one gallon of water. If feeding less often (every 7-10 days), use 1/2 - 1 tablespoon SPOONIT® in one gallon of water. Apply to soil only at the rate of 2-3 cups of solution per 10-12 inch basket. Do not apply to foliage or flowers. At least once each month use plain water to flush soil of accumulated salts.

Expert advice for growing fuchsias can be found at www.lillymiller.com.

GUARANTEED ANALYSIS (F1475):

Total Nitrogen (N)	14%
14.0% Ammoniacal Nitrogen	
Available Phosphate (P ₂ O ₅)	16%
Soluble Potash (K ₂ O)	10%
Magnesium (Mg)	0.5%
0.5% Water Soluble Magnesium (Mg)	
Sulfur (S)	10.0%
10.0% Combined Sulfur (S)	

Derived from ammonium sulfate, ammonium phosphate, muriate of potash, magnesium sulfate.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfc.org/metals.htm>.

Filled by weight not by volume. Product may settle after packaging. Keep out of reach of children. Store in a dry location. Keep lid securely fastened. Hardening may occur due to exposure to moisture. Break up clumps before use.
